

# Sidewalks in 5 Steps

1

Call 684-WALK to reach the Neighborhood Sidewalk Program.

2

Get your block committed to building a sidewalk and forming a Local Improvement District (LID).

3

Work with the City of Seattle to determine the right type of sidewalk.

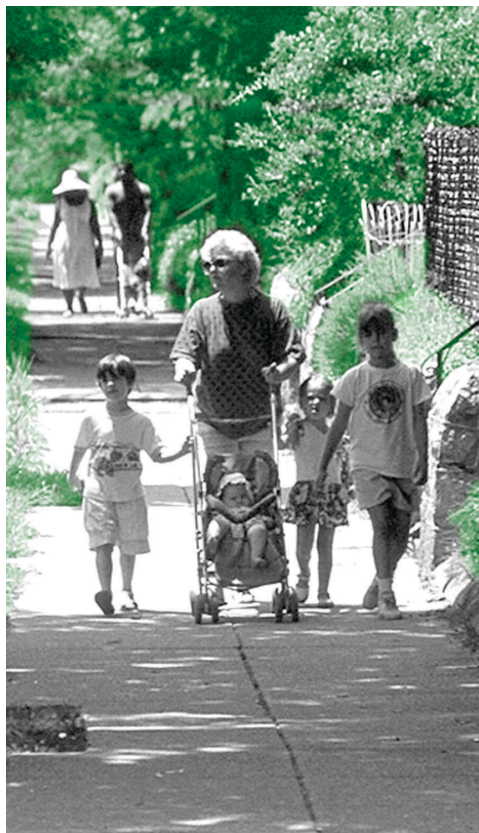

4

Form a Local Improvement District (LID) and partner with the Neighborhood Sidewalk Program to fill the gap between the cost of the sidewalk and the LID's contribution.

5

Watch the City of Seattle build your sidewalks.

*Planning, design and construction of sidewalks can take up to 18 months.*

Do you want to improve pedestrian safety, neighborhood aesthetics, and calm traffic?

The Proposed Neighborhood Sidewalk Program Can Help.

# A Sidewalk Menu

Pick the option that's best for you.

## Concrete curb and landscaping

**\$28,000** per/350' block

S. Dawson St., west of 39th Ave. S.

## What is an LID?

A Local Improvement District (LID) is a collection of property owners who get together to finance a neighborhood improvement project. LID participants pay an amount proportional to the improvement they receive on their property.

## Concrete curb, stamped and colored asphalt walkway

**\$35,000** per/350' block  
(without landscaping)

**\$52,000** (with landscaping)

N. 87th St., west of Dayton Ave. N.E.

## Concrete curb, concrete sidewalk and landscaping

**\$200,000** per/350' block

N.E. Blakeley St., east of 25th Ave. N.E.

*Every location is different. The Neighborhood Sidewalk Program will work with you to determine which option works best.*
